

LEGO Manufacturing Kft. is a subsidiary of the world-famous toy manufacturer LEGO Group, present in Hungary since December 2008, located in Nyíregyháza and employing 1300 people. The floor area of the factory is approximately 38,000 m² and has 334 moulding machines.

As the company has achieved significant business success year after year, **LEGO Group has decided to undertake considerable developments in Nyíregyháza.** The first phase of the project starts this year. In the second phase of construction, a new factory (comprising moulding, decoration, processing, pre-packaging and packaging facilities along with a classic and an automated warehouse) is planned to be built and handed over in 2015.

In the spirit of our commitment to customers, we set high standards for our workflows in order to maintain the usual remarkable recognition and excellent quality of LEGO products. We are proud of the success we have achieved, and the numerous favourable feedbacks we receive encourages us to seek progress in further areas in the future.

To achieve these goals we are looking for a

IT Supporter

who will have a significant role in the performance of the following tasks:

Internal IT support via phone and e-mail to end users locally and globally. In this position you will be solving issues reported by your fellow employees or will be escalating them to the next level in the support chain.

Position requirements:

- Fluent English
- Solid IT skills (Windows, MS Office, Server, Hardware)
- Relevant education or professional experience in a similar field is an advantage
- Good communication, troubleshooting and problem solving skills
- Attention to details, multi-tasking, ability to prioritize effectively
- Team player
- Customer focus
- Willingness to work in shifts (24/7)

The role offers:

the exciting varied challenges of a large corporation and a competitive remuneration package in a top-class environment. Join a friendly, social and dynamic team, where in addition to creative work focus is on ensuring regular opportunities for professional progress.
